

GOPAY PAYMENTS - METHODOLOGY – options how to pay for accommodation, services and all related fees

Now, you have a new option how to pay for accommodation, services and the fees related. The payment of the accommodation fee may be realised via a credit card or online directly in the accommodation system ISKAM4. To log into the system, please use the following link:

<https://ubytovani.vscht.cz/login>

As shown in the picture, you can pay all the debts, be their due or before their due date!

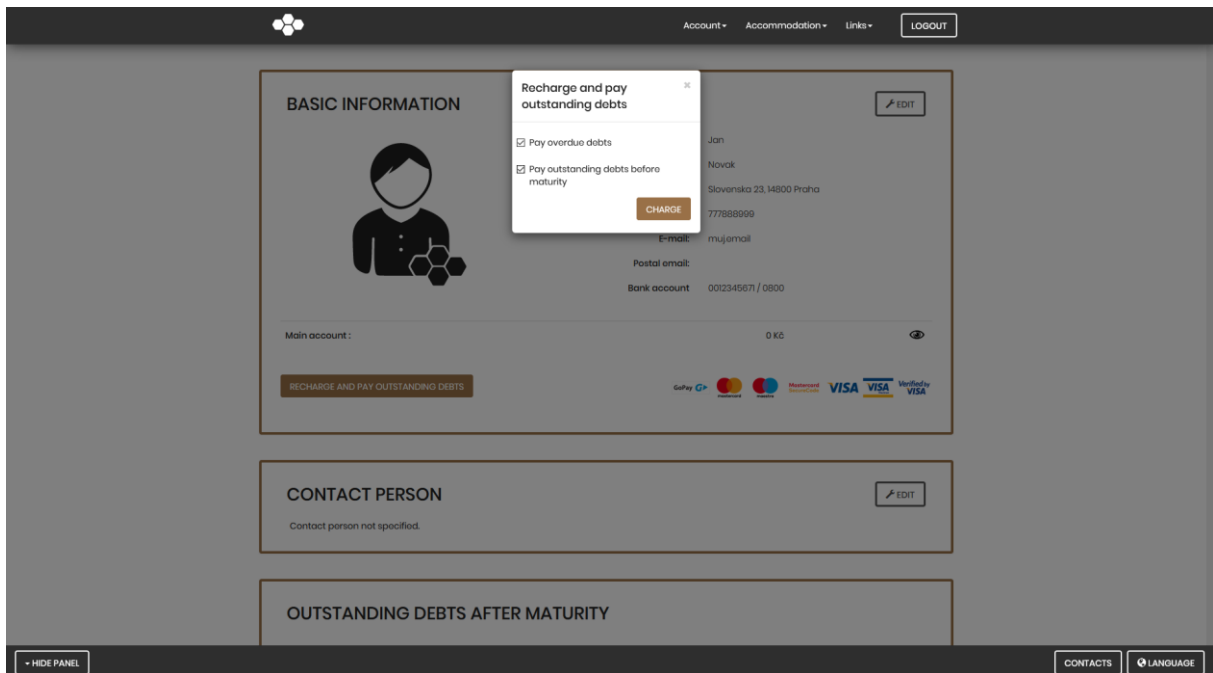

The screenshot displays a user profile page with a dark header and footer. The header contains navigation links: Account, Accommodation, Links, and a LOGOUT button. The main content area is divided into three sections:

- BASIC INFORMATION:** Includes a profile icon, an EDIT button, and fields for Name (Jan), Surname (Novak), Address (Slovenska 23, 14800 Praha), Mobile (777889999), E-mail (mujemail@gmail.com), Postal email, and Bank account (0012345671 / 0800). Below this is a 'Main account' field showing '0 Kč' and a 'RECHARGE AND PAY OUTSTANDING DEBTS' button. Payment logos for GoPay, GP, Mastercard, Maestro, VISA, and Verified by VISA are also visible.
- CONTACT PERSON:** Shows 'Contact person not specified.' and an EDIT button.
- OUTSTANDING DEBTS BEFORE MATURITY:** This section is currently empty.

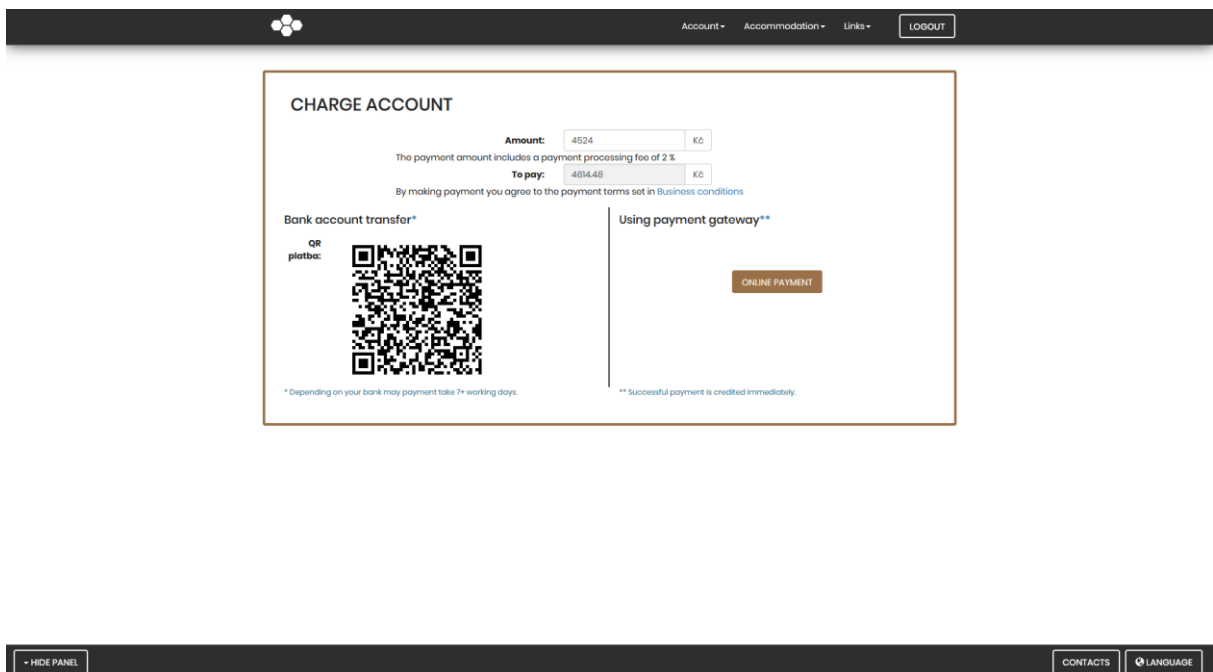

The footer contains a 'HIDE PANEL' button, 'CONTACTS', and 'LANGUAGE' options.

Click the icon RECHARGE AND PAY OUTSTANDING DEBTS.

You can now select the option you want to pay for or even select both of them at once.

After clicking the RECHARGE button, the following screen shall be displayed.

The box AMOUNT shall display the amount to be paid depending on the category of the debts you have selected. Of course, you can still adjust the amount to suit your needs.

Caution: a banking fee for the realisation of your payment is always added. You can ALWAYS see the relevant fee right below the payment you are just recharging. The amounts of the fees charged may fluctuate in time.

If you agree with the amount of the payment to be realised, click the ONLINE PAYMENT button to be immediately redirected to the payment gateway.

After the payment is realised (confirmed), you shall be redirected back into your account in the ISKAM4 system and a receipt for the payment shall be displayed.

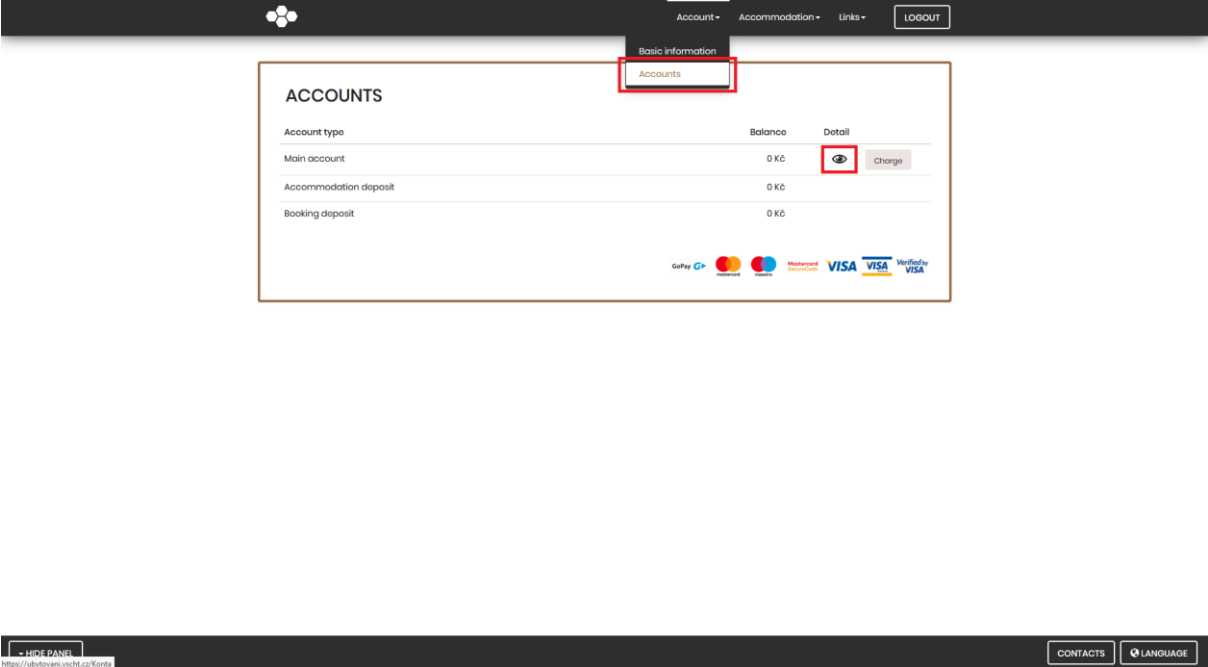

A payment modal window with a dark grey border and a close button (X) in the top right corner. At the top center is a red square logo with a white stylized flame or drop shape. Below the logo are two tabs: "Payment" (active) and "Order". Under the tabs is an email input field containing "muj.email@gmail.com". Below that are three input fields: "Card number" with "VISA" and "MasterCard" logos, "Expiry date", and "CVC". A "Remember card" toggle switch is below the card fields. At the bottom is a large blue button with the text "Pay 4,614.48 Kč".

PAYMENT RESULT
The payment was successful.

The option to realise the payment you have just made disappears from the opening screen Basic Information. If you selected and paid all your debts, even the option to pay them has now disappeared.

You can follow the overview of all your payments in the ACCOUNTS section.

If you are unable to transfer the desired amount of money via the payment option/method you have selected, please, contact us at iskam@vscht-suz.cz immediately.
